PERSONAL PROJECTS

Portfolio website
- This is my portfolio website where I presented my whole educational data, work experience and skill set I have.
- You can see complete code on my Github repo: azharabbass123/portfolio

URL Shortener website
- I created a website in React js which take long urls and convert it to short and store it in local storage. A history page is also there to store all previous short urls. User can copy short url to clip board.
- You can see complete code on my Github repo: azharabbass123/url-shortener

Tic Tac Toe
- This is simple tic tac toe game in React js. I made this game to strengthen my problem solving skills.
- You can see complete code on my Github repo: azharabbass123/tic-tac-toe

Shortest Path Visualizer
- This is path visualizer, it implement A star algorithem to find shortest path from starting to end point.
- You can see complete code on my Github repo: azharabbass123/path-visualizer

SKILLS
